Vice Chair

Working closely with several committees: notably Communications and Convention, also Audit, Membership, Affiliate Support, Rules, Platform, Legislative Action. Addressing business and operations issues as they arise.

Visited Melbourne Convention site twice. While initially promising, their sales manager backed off her original 'pay as you go, no minimum' verbal commitment she made to myself and the site visit team, so supported dropping consideration of that site.

Working closely with Better Ballot Florida which began as a joint LPF/Green project but already beginning to expand outward. Serving as Vice Chair to their Board of Directors. Working closely with several of their committees.
